Summary

Master's student in Computer Systems Engineering, with hands-on experience in Full-Stack and Mobile development (React, Node.js, React Native) and a growing interest in AI.

Education

Faculty of Sciences of Monastir Master's
Computer Systems Engineering Monastir, Tunisia • 2025 - Present

Faculty of Sciences of Monastir Bachelor's
Software Engineering Monastir, Tunisia • 2022 - 2025

Work Experience

Cleverttech France Monastir, Tunisia
Mobile Developer Intern Jul 2026 - Present

- Development of the mobile version of **Archimatch**, a platform for construction professionals in Tunisia.
- End-to-end feature ownership.
- AI integration planned at a later stage of the project.

Mobelite Tunisie Monastir, Tunisia
Full-Stack Developer Intern Feb 2025 - May 2025

- Development of **MobiDical**, a full-stack web app for autistic children.
- REST API built with Node.js, Express, MongoDB, and JWT authentication.

CodinGOAT Sousse, Tunisia
Mobile Developer Intern Jul 2024 - Aug 2024

- Learned Flutter/Dart for cross-platform mobile development.
- Developed **Streakly**, a habit-tracking app with Firebase (auth + real-time sync).

Projects

PocketLens Jan 2026 - Present
Cross-platform mobile app to manage personal expenses with Firebase authentication, real-time data sync and a modern UI built with React Native and NativeWind.

MobiDical Feb 2025 - May 2025
Full-stack web application for children with autism — parent dashboard to track progress, educational game modules by category, and JWT authentication.

Streakly June 2024 - Aug 2024
A mobile app to help users build and maintain healthy habits through reminders and progress tracking. This project is still in development.
